No fund leverage and no double discount risk

KEY THEMES DRIVING RETURNS

There are five key themes in the real estate sector: ageing populations, digitalisation, urbanisation, generation rent and changing consumer behaviour.

AGEING POPULATION – INCREASING DEMAND FOR HEALTHCARE

UK population ageing.

Shifting UK demographic increases demand on primary healthcare and residential care.

Ageing stock – 20% of primary care estate was built before 1948¹.

10-year NHS plan due in Spring.

Proportion of UK population over 65²

DIGITALISATION – DRIVING DEMAND FOR AUTOMATED WAREHOUSES

E-commerce penetration increasing.

Online sales represents 27.0%¹ of retail sales in the UK.

E-commerce requires more than 3x the logistics space of brick-and-mortar sales².

By 'retail sales' we mean the sale of goods to the final consumer. U.S. totals have been adjusted to bring them into line with our definition of retail sales – excluding vehicle fuel, auto sales and prepared food sales (hospitality).

GENERATION RENT – DEMAND SUPPLY IMBALANCE

Growing demand and shrinking supply of rental homes.
Average UK private rents increased by 9.0% in the 12 months to December 2024¹.
